BEST EARTH-FRIENDLY DRY CLEANERS

Green Apple Cleaners, 888.ILUVC02
www.GreenAppleCleaners.com

You recycle. You shop for organic produce. Sometimes you even drink soy milk. But have you ever thought about how your dry cleaning might affect the world around you? Green Apple Cleaners have put a lot of thought into this and have developed a solution. Cleaning with liquid CO₂, Green Apple manages to eliminate chemicals that are dangerous to humans from the dry cleaning process, but still gets your clothes spotless. While this is definitely an environmentally conscious company, they're still New Yorkers and therefore offer automated online payments in addition to pick-up and delivery services throughout Manhattan that save you time. They may be earth-friendly, but this isn't California.
